Component

2	3	
Social cognition/judgment	Cognitive performance and control	
Sentence comprehension and syntax	Cognitive control and interference	
Autobiographical memory in epilepsy	Reward and decision making	
Resting state networks	Working memory and executive function	
Emotional processing and regulation	Relational reasoning and fluid intelligence	
Cognitive performance and control	Experimental design and behavioral performance	e
Episodic memory encoding and retrieval	Working memory and executive function	
Autobiographical memory in epilepsy	Cognitive performance and control	
Social cognition/judgment	Cognitive control and interference	
Resting state networks	Pain perception and sensory stimulation	
Sensorimotor integration and movement control	Episodic memory encoding and retrieval	
Visual perception of motion and form	Resting state networks	
Visual object recognition	Autobiographical memory in epilepsy	
Eye movements and visual attention	Alzheimer's disease and mild cognitive impairme	ent
Spatial cognition	Social cognition/judgment	
Social cognition/judgment	Pain perception and sensory stimulation	
Autobiographical memory in epilepsy	Cognitive control and interference	
Resting state networks	Working memory and executive function	
Episodic memory encoding and retrieval	Cognitive control and task performance	
Genetic risk and familial factors in psychosis	Cognitive performance and control	

4
Pain perception and sensory stimulation
Music perception and auditory processing
Somatosensory stimulation and motor control
Speech and language processing
Sensorimotor integration and movement control
Spatial cognition
Mental imagery and math abilities
Attention
Visual object recognition
Visual perception of motion and form
Pain perception and sensory stimulation
Somatosensory stimulation and motor control
Music perception and auditory processing
Sensorimotor integration and movement control
Speech and language processing

Emotional processing and regulation Personality and anxiety
